

# Bloomy Controls Engineers Earn LabVIEW and TestStand Certifications

## Meet our newest employees

Bloomy Controls has added additional staff to better serve you. This fall, our newest engineers successfully completed the examinations required to earn the following National Instruments (NI) technical certifications:

- **Lesley Cannon, Certified LabVIEW Developer** – Associate Engineer serves customers in tri-state New Jersey, New York, and Connecticut; Lesley holds a B.S. in electrical engineering from Rutgers University
- **Jim Fowler, Certified LabVIEW Developer** – Associate Engineer serves customers in Connecticut and western Massachusetts; Jim completed his B.S. in computer science and engineering at the University of Connecticut
- **Elaine Ramundo, Certified LabVIEW Developer and Certified TestStand Developer** – Training and Support Engineer instructs in our training centers and provides engineering support for customers in eastern Massachusetts, Rhode Island, and northern New England; Elaine holds a B.S. in electrical and computer engineering from Carnegie Mellon University.

Certified Developers demonstrate understanding of LabVIEW and/or TestStand concepts, style, advanced topics, and applied use of knowledge. All Bloomy Controls engineers hold this certification, so you can be confident in our software development and systems integration.

In addition to technical staff, we have added new administrative staff. The friendly voices answering your calls can help you quickly obtain estimates, place or track orders, and register for training courses or seminars:

- **Thalia Frilingos** – Administrative assistant and bookkeeper in Windsor, CT
- **Luana McNally** – Administrative assistant in Milford, MA.
