### NIWeek 2015 - A Big Success!
Highlights include four technical presentations, five exhibits and many new resources.

### Main Rotor Actuator HIL Test System
Bloomy collaborates with a helicopter manufacturer to design a flexible main rotor actuator hardware-in-the-loop (HIL) test system.

### ATE Best Practices - Test Code Development and Deployment
Watch Grant Gothing share some of Bloomy's best practices at NIWeek 2015.

### Agile-In-Action
Read our 5-part series on SOLID software and agile project management, enabling LabVIEW development teams to conquer projects with highly-emergent requirements.

### Top 5 Challenges with BMS Testing
Learn about the challenges and solutions for BMS testing presented by Peter Blume at the Advanced Automotive Battery Conference.

### Valuable Resources at Your Fingertips
Create an account on **Bloomy.com** and gain access to valuable resources including 12 new downloads associated with several of the articles in this newletter.
